Certifications

UL® The component recognition marking is found on a wide range of products, including some switches, power supplies, printed wiring boards, some kinds of industrial control equipment and thousands of other products.

RoHS RoHS is a directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

CE The CE mark is a mandatory conformity marking for certain products sold within the European Economic Area (EEA) since 1985. The CE marking is found even on products sold outside the EEA, because they are either products manufactured in the EEA and have been exported, or they were manufactured in other nations which have EEA as a prime market.
